

FIG.1

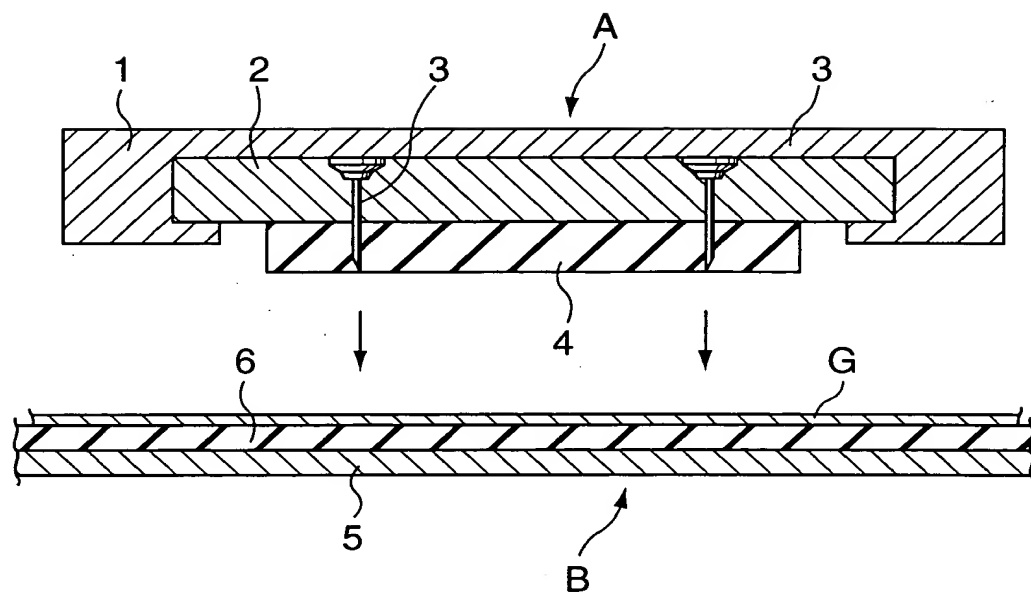

FIG.2

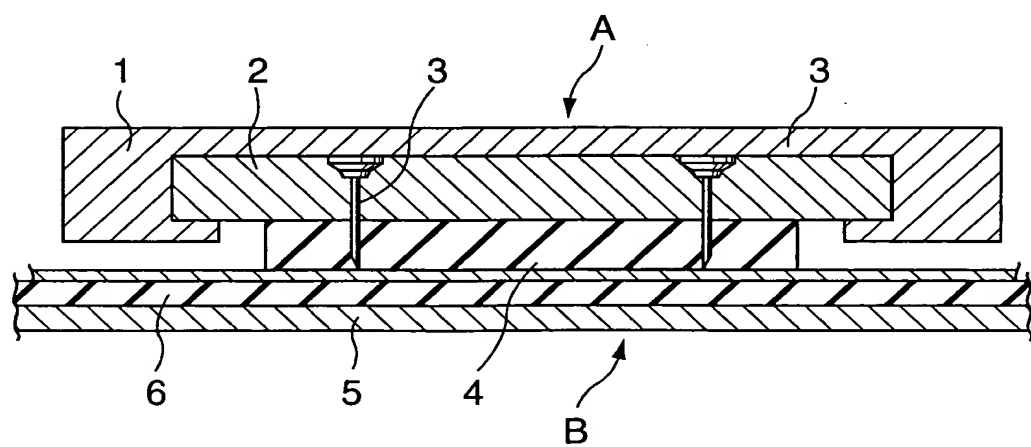

FIG.3

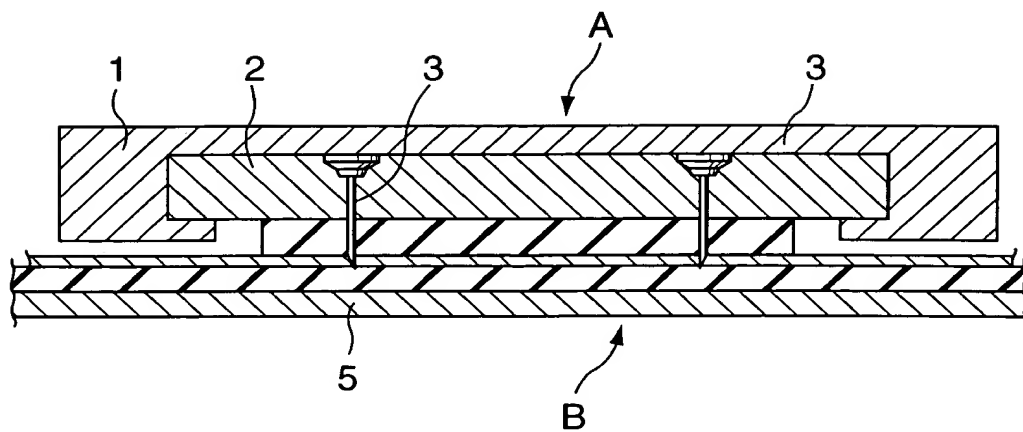

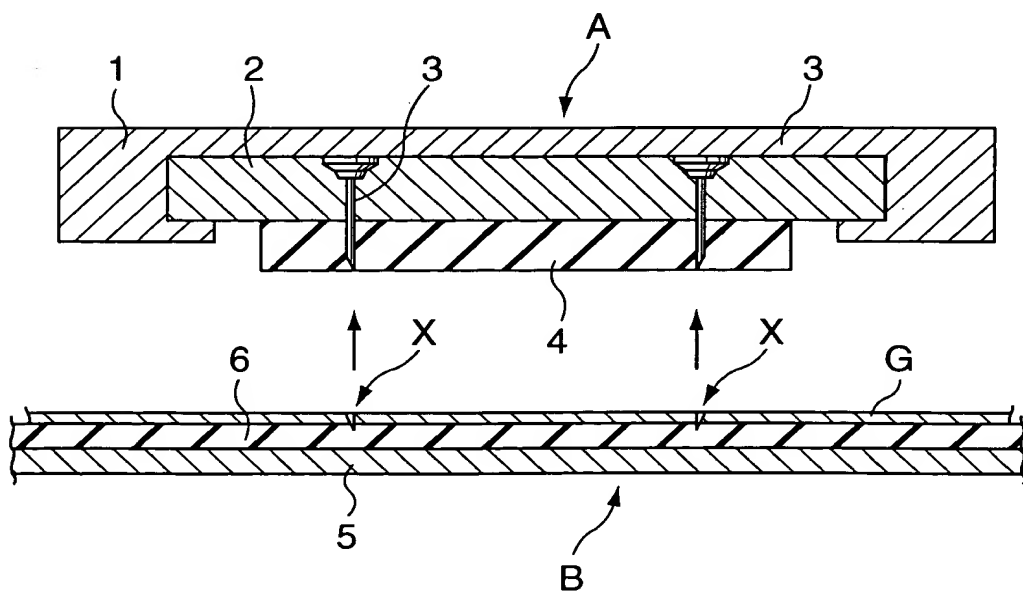

FIG.4

[illegible]

Technical drawing of a mechanical assembly in cross-section. The main body (1) is a long, rectangular block with diagonal hatching. It features two internal cavities. Each cavity contains a component (2) which is secured by a screw (3) passing through a base plate (4). The base plate (4) is shown in cross-section with diagonal hatching. The screws (3) are shown in cross-section with a hexagonal head and a threaded shaft. The components (2) are shown in cross-section with diagonal hatching.
